

THANK-YOU LETTER

Date: January 30, 2019

To Whomsoever It May Concern

This is letter to express my gratitude to Mr. Chatzinikolaou Dimosthenis, who translated voluntarily, under no paid relationship or other obligation, the 1st edition of my English-language textbook, into Greek:

Antonopoulos, A. M. (2015).
Mastering bitcoin: Unlocking digital crypto-currencies
(First edition). Sebastopol CA: O'Reilly.
ISBN-13: 978-1449374044

This translation was carried out through the electronic platform transifex.com and was not peer-reviewed by either the author of the book or other official proofreader.

Mastering Bitcoin is a highly technical, 298-page, college-level textbook with complex vocabulary requiring specialized domain expertise. The translation of this work was a significant scholarly achievement by Mr. Chatzinikolaou.

The author,

Andreas M. Antonopoulos
